

**Baggi®** was established in 1947, in Milano (Italy) , as a family company and became B.A.G.G.I. LTD in 1975. It has been providing Consultancy, Design, Integration, Installation and Assistance in the field of Business Telecommunications solutions. The turn-key systems delivered worldwide by the company include:

- Voice over IP systems: Private networks, Pabx's and accessories
  
- Telephone traffic interconnection with the Incumbent operator
  
- Data networks
  
- Cabling and optical fibre nets
  
- Control rooms and Multimedia rooms
  
- Videoconference systems
  
- Unified communication
  
- Remote e-learning
  
- Automation

The main reason of success has always been the attitude to listen to the customer's needs and to deliver a complete reliable solution. Based on this experience, **Baggi®** is able to offer very reliable solutions in reasonable time for many demanding applications.

The **Baggi® SERVICE** offers a complete post-sales support (periodical and spot maintenance, spares, expansion, technical assistance) in order to achieve a full Customer's satisfaction (ISO 9001:2008).

The company is based in Italy, but installations have been done all over the world directly or through well-known engineering companies.
